**Hunt Hill Farm Trust** was established in 2003 as a nonprofit organization, in affiliation with the Smithsonian Institution, with founding gifts and the donation of its buildings and grounds by Ruth and Skitch Henderson.

Today Hunt Hill Farm and The Silo offer area residents, students, and visitors opportunities to experience music, art, cuisine, crafts and literature in a splendid setting of historic farm buildings and permanently protected open space in the heart of Connecticut's Northwest Corner.

*The history of the buildings on this farm, the land, stone fences which are history unto themselves, and the odds and ends of machinery that correspond to the landscape are to me a symphony of wonderment and joy.*

*I have viewed many landscapes but there is something about this Yankee countryside along with the thistles and rocks that make it unique in my mind. I am hopeful it will stay for the next generation and the next and the next. I am a total fan.*

*– Skitch Henderson*
