The Town of New Milford has scheduled road work for the 2017 construction season.

Major preventative maintenance paving operations (mill and patch) on **identified segments** of the following roads in the summer of 2017 will begin as part of our road maintenance plan. This work will be performed in beginning the week of July 31st to mid-August weather permitting.

Road List: Canterbury Rd from Circle Dr to Elkington Farm, Crawford Rd, Santa Lane, Park Lane West, Birchwood Dr, Old Orchard Lane, Park Lane East, Old Park Lane, Bradbury Rd and Heacock-Crossbrook Rd (partial)

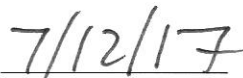

Soon after, centerlines will be reapplied.

The Department of Public Works would like to thank you for your patience and understanding during this projects' construction period and for allowing us the opportunity to improve the Town's infrastructure. As always, all these construction techniques are weather dependent.

Approved by:

Daniel L. Stanton, PE – Town Engineer
