

## **2.5 WATER SUPPLY –**

All subdivision plans shall make proper provision for water supply to all proposed lots.

### **2.5.1 Community Water Supply –**

In areas generally supplied by a community water system the proposed subdivision shall be connected to such system. The extension shall be designed and constructed in accordance with the requirements of the water company and those of the New Milford Department of Public Works as to the location of utilities within the street. All necessary mains, branch offsets to each lot and fire hydrants shall be installed by the developer without expense to the Town. A letter from the public water company confirming the availability of services shall be included with a submission proposing public water supply.

### **2.5.2 Private Well Supply –**

An applicant proposing private wells serving individual lots shall submit evidence of the feasibility of such supply and such wells shall be located and installed in conformity with prevailing health codes.

### **2.5.3 Fire Protection-**

The sub-divider shall take into account the need for adequate fire protection either by providing hydrants in the water supply system or a fire suppression system approved by the Commission within the subdivision, including necessary access easements to such system.
